

“EVERY ACCOMPLISHMENT STARTS WITH THE DECISION TO TRY.”

Mayur Public School, IP extension has been honoured with the coveted “Global Sustainable School Award” conferred by GEARED; Global Educators Associations for Educational Research and Development in recognition of its sincere endeavours towards sustainable environment, with its emphasis upon two main goals i.e. “Affordable and Clean Energy” with the serious agenda through a Project on “Low power Consumption”, by changing tube lights, CFLs with LEDs. The students strived to sensitize masses to conserve and save energy through campaigns, rallies, street plays, and digital awareness. The students along with their mentor initiated the change of the CFLs to LEDs in various areas of the school premises and neighbouring residential complex. The culminate move by the school was to install 84 PV Solar Panels on the school roof to generate clean energy.

The other significant goal was “Life on Land”, wherein students worked upon the project “Conservation of Sanjay Lake Wetland”. A group of 800 students raised another buzzing issue of conserving aquatic life. They organised mass cleanliness drives endeavouring cleaning of ‘Sanjay Lake’ to save fish and vegetation of local water body from its absolute extinction. Mayur team got awarded with gold medals in both of its projects, on 22nd April 2017, the day which is also celebrated as World Earth Day. For these of its concerted

efforts and MPS has been duly recognised and got awarded in Gold Category; adding another feather in its cap. GEARED recognizes that sustainable schools would be role models for future schooling system.

Mayur Public School sincerely appreciates the involvement and wholehearted indulgence of its faculty members and students for cherishing the concept of sustainable development.

The school Principal Ms. Shakuntla Rawat congratulates the entire team members and blesses them for their future endeavours in this direction.
